To Whom It May Concern:

Metro Developments Ltd

I confirm that having been the supervising surveyor on behalf of Shocklach Oviatt School for their extension project I would have no hesitation in recommending Metro Developments Ltd for future projects.

Their attention to health and safety matters in a school environment was first class and their workforce acted in a considerate and professional manner at all times. The project was delivered on time, despite adverse weather conditions, and the standard of finish was exactly as specified.

Site control and waste management combined with a conscientious approach meant that school was allowed to function as normal as possible considering the scale of the works. Unforeseen works and problems encountered were handled in a pragmatic and cost effective manner resulting in the project being on programme and within budget.

Should any further information be required please do not hesitate to contact me.

Yours sincerely

Andy Brown
